

James J. Kelly
 Department of Physics
 University of Maryland
 College Park, MD 20742

Education:

- 1977 BS (with Honors), California Institute of Technology
- 1981 PhD in Physics, Massachusetts Institute of Technology

Employment:

1976 - 1977	Summer Student	Dept. of Nuclear Chemistry, Brookhaven National Laboratory
1976 - 1977	Teaching Assistant	California Institute of Technology
1977 - 1981	Research Assistant	Massachusetts Institute of Technology
1981 - 1983	Research Associate	Massachusetts Institute of Technology
1983 - 1984	J. Robert Oppenheimer Fellow	Los Alamos National Laboratory
1984 - 1989	Assistant Professor	University of Maryland
1989 - 1999	Associate Professor	University of Maryland
1999 - present	Professor	University of Maryland

Visiting positions:

- 1991 - 1992 Visiting Scientist NIKHEF (Amsterdam)

Honors:

- 1973 - 1977 Alicia Patterson Memorial Scholarship (Newsday)
- 1983 - 1984 J. Robert Oppenheimer Fellowship

Professional service:

- 1984 - referee for PRC, PRL, Nucl. Phys. A, Eur. Phys. J., J. Phys. G, NSF, CRDF
textbook reviews for MacMillan, Academic Press, Thomson Brooks/Cole
- 1986 - 1990 IUCF User's Group Executive Committee: chair-elect 1988, chair 1988-89
- 1987 faculty advisor in US-USSR Student Exchange Program
- 1989 - 1992 LAMPF Program Advisory Committee
- 2000 NSTAR2000 conference organizing committee
- 2006 - Editorial Board, Physical Review C

PhD theses directed

- 1990 H. Seifert Energy dependence of the effective interaction for nucleon-nucleus scattering
- 1991 A. E. Feldman Neutron transition densities of ^{48}Ca
- 1996 T. M. Payerle Pion absorption on ^7Li at 165 MeV
- 2003 N. A. Savvinov Charge form factor of the neutron through $d(\vec{e}, e'n)$ at $Q^2 = 1.0$ (GeV/c) 2

Books

- 1. Graduate Mathematical Physics, J. J. Kelly, (Wiley-VCH, Weinheim, 2006), ISBN 3-527-40637-9

Refereed publications

1. J. J. Kelly and R. M. Lambrecht, Positron annihilation in $n-$ and $p-$ type, $B-$ and $P-$ doped silicon crystals of 100 and 111 orientations, Phys. Lett. 60A, 475 (1977)

23. J. J. Kelly, Nucleon electromagnetic form factors and densities, in SPIN2002: 15th International Spin Physics Symposium, AIP Conf. Proc. 675, 78-87 (2003)
24. B. Plaster *et al.*, The electric form factor of the neutron via recoil polarimetry up to $Q^2 = 1.47$ $(\text{GeV}/c)^2$, AIP Conf. Proc. 675, 625-629 (2003)
25. J. J. Kelly, Nucleon electromagnetic form factors and densities, in Intersections of Particle and Nuclear Physics, AIP Conf. Proc. 698, 393 (2003)
26. R. Madey *et al.*, Neutron electric form factor up to $Q^2 = 1.47$ $(\text{GeV}/c)^2$, in proceedings of Electron-Nucleus Scattering VII (Elba, 2002), Eur. Phys. J. A 17, 323 (2003)
27. T. Reichelt *et al.*, Measurement of the neutron electric form factor via recoil polarimetry, in proceedings of International Conference on Quark Nucleon Physics (Jülich, 2002), Eur. Phys. J. A 18, 181 (2003)
28. J. J. Kelly, Recoil polarization for neutral pion electroproduction near the Delta resonance, in proceedings of Nuclear and Particle Physics with CEBAF at Jefferson Lab (Dubrovnik, 2003), Fizika B 13, 81 (2004)

Invited talks

1. Proton scattering to collective states: what we learn about the effective interaction in the nuclear medium, Workshop on the Interaction Between Medium Energy Nucleons in Nuclei, Indiana University Cyclotron Facility, Bloomington, IN, Oct. 1982
2. Implications of density dependence in the effective interaction for the excitation of spin modes, Conference on Spin Modes in Nuclei, Telluride CO, March 1982
3. Neutron transition moments, Symposium on Transition Moments in Nuclei, Argonne National Lab, June 1985
4. Modeling direct reactions, Workshop on Advanced Methods in the Evaluation of Nuclear Scattering Data, Berlin, June 1985
5. Analysis of electron and hadron scattering by nuclei, Cretan Conference on Current Problems in Nuclear Physics, Crete, June 1985

6. Comparison of electromagnetic and hadronic probes of nuclear structure, 1985 IUCF Workshop on Nuclear Structure at High Spin, Excitation, and Momentum Transfer, Bloomington IN, Oct. 1985
7. Transition densities from (e, e') and (p, p') data, American Chemical Society Symposium on Nuclear Structure and Reactions, Los Angeles, Sept. 1988
8. Effective interactions and nuclear structure, Workshop on Physics with a Magnetic Spectrograph, Kernfysisch Versneller Instituut der Rijksuniversiteit Groningen (Netherlands), Sept. 1989
9. Measurement of neutron transition densities, Oberjoch Meeting on Pion-Nuclear Physics, Oberjoch (Germany), Sept. 1991
10. Comparison between relativistic and nonrelativistic models of the nucleon-nucleon effective interaction, in 5th Workshop on Perspectives in Nuclear Physics at Intermediate Energies, Trieste, May 1991
11. Channel coupling in $(\vec{e}, e' \vec{N})$ reactions, Second Workshop on Electromagnetically Induced Two-Nucleon Knockout, Gent, May 1995
12. Recoil polarization in electroproduction of mesons, Nuclear and Particle Physics with CEBAF at Jefferson Lab, Dubrovnik, Nov. 1998
13. Effective interaction and neutron transition densities, RCNP Workshop on Nuclear Responses and Medium Effects, Osaka, Nov. 1998
14. Nucleon electromagnetic form factors, Xth Nato Advanced Spin Workshop, Yerevan (Armenia), July 2002
15. Nucleon electromagnetic form factors and densities, plenary talk at 15th International Spin Physics Symposium, Brookhaven National Lab, Sept. 2002
16. Nucleon charge and magnetization densities from Sachs form factors, Conference on the Intersections between Nuclear and Particle Physics, New York City, May 2003
17. Recoil-polarization response functions for neutral pion electroproduction near the Delta resonance, Nuclear and Particle Physics with CEBAF at Jefferson Lab, Dubrovnik, May 2003
18. Influence of the Dirac sea on nucleon electromagnetic knockout, Workshop on Spectroscopic Factors, European Center for Theoretical Studies in Nuclear Physics and Related Areas, Trento (Italy), May 2004
19. Response functions for Delta excitation, Gordon Research Conference on Photonuclear Reactions, Tilton NH, Aug. 2004

Seminars, colloquia, and special lectures

1. 1980-1984: seminars at Rutgers, Northwestern, U. Pittsburgh, LASL, LLNL, U. Georgia, FSU, UMD, Indiana U., MIT, UNH, U. Mass (Amherst)
2. Modeling direct reactions, seminar at MIT on April 9, 1985
3. Effective density-dependent interactions for nucleon-nucleus scattering, lecture at the National Summer School in Nuclear Physics on June 12, 1985
4. Radial sensitivity of nucleon inelastic scattering, colloquium at Kent State University on Jan. 23, 1986
5. Radial sensitivity of nucleon inelastic scattering, seminar at California Institute of Technology on April 11, 1986
6. Nucleon form factors, seminar at UMD on Sept. 22, 1988
7. Medium modifications of nucleon scattering, seminar at UCLA on Sept. 30, 1988
8. Empirical medium modifications for nucleon scattering, colloquium at Indiana University on Oct. 5, 1988

9. Effective interactions and nuclear structure deduced via proton scattering, seminar at UMD on Oct. 24, 1988
10. Synthesis of electromagnetic and hadronic probes of nuclear structure, seminar at Carnegie Mellon on April 6, 1989
11. Neutron transition densities deduced using empirical effective interactions, seminar at Catholic University on Nov. 28, 1989
12. Seeing neutrons within the nucleus, colloquium at Notre Dame on March 7, 1990
13. Empirical effective interaction for proton scattering, seminar at Rijksuniversiteit Utrecht on Oct. 2, 1991
14. Empirical effective interaction for proton scattering, seminar at NIKHEF-K (Amsterdam) on Oct. 24, 1991
15. Empirical effective interaction for proton scattering, seminar at Universite de Liege (Belgium) on Nov. 25, 1991
16. Effective interactions and transition densities for proton scattering from nuclei, OIO lectures at Zeist (Netherlands) on Dec. 16-17, 1991
17. Extraction of neutron transition densities from proton scattering data, seminar at NIKHEF-K (Amsterdam) on March 12, 1992
18. Effective interactions and nuclear stucture from proton scattering, seminar at UVA on Oct. 5, 1992
19. Comparison between relativistic and nonrelativistic models of the nucleon-nucleon effective interaction, seminar at Ohio State University on Oct. 23, 1992
20. The $p(\vec{e}, e' \vec{N})\pi$ reaction with HARP, seminar at UMD on Feb. 3, 1993
21. The $(e, e'n)$ reaction, seminar at George Washington University on March 26, 1993
22. Comparison between relativistic and nonrelativistic models of the nucleon-nucleon effective interaction, seminar at Ohio University on June 3, 1993
23. Seeing neutrons within the nucleus, colloquium at Ohio University on June 4, 1994
24. Proton spectral functions from $(e, e'p)$ measurements, seminar at UMD on Nov. 17, 1994
25. Recoil polarization in electron scattering, seminar at Rutgers on Nov, 14, 1995
26. Recoil polarization in η electroproduction, seminar at Jefferson Lab on Oct. 12, 1996
27. Structure versus FSI at high momentum, seminar at Jefferson Lab on Feb. 21, 1997
28. Nucleon and nuclear structure using electromagnetic recoil polarization, colloquium at UMD on Oct. 27, 1998
29. Recoil polarization in electromagnetic production of mesons, seminar at Jefferson Lab on May 24, 1999
30. Nucleon charge and magnetization densities from Sachs form factors, seminar at UMD on May 17, 2002
31. Nucleon charge and magnetization densities from Sachs form factors, seminar at Jefferson Lab on June 21, 2002
32. Recoil polarization in pion electroproduction at the Delta resonance, seminar at George Washington University on Nov. 22, 2002
33. Response functions for Delta excitation at $Q^2 = 1$, seminar at Jefferson Lab on May 11, 2005
